President's Message

As I was reviewing the agenda for our last Membership Luncheon, for some reason I parked for several seconds on the first item, The Flag Salute. This has always been the opening item on our meeting agenda, and I imagine that most of you have had the Pledge memorized since you were in elementary school. But how much do we ever reflect on the words we recite, and their powerful statement about this great country in which we are privileged to live? Here's some great perspective I found on the internet concerning the ideals that frame the words of our Pledge of Allegiance:

A close friend recently completed her study and took the oath of allegiance as a new citizen of the United States of America. It was a wonderful ceremony and a great time to reflect on the blessings we receive as citizens. How rare these are as you survey countries around the world. Circumstances like this remind us what it really means to be an American and why it is so important to stand together and help each other through hard times like we face now. This is the American Spirit, and it's why we always make it through!

As we head into the busiest and most enjoyable season of our chamber calendar, reach out and help some other business in our area. And, consider how you can help ALL of our chamber business by becoming involved as a volunteer for Tour de Peaks. There are lots of ways you can help, and I promise "You'll have a blast!" serving alongside fellow volunteers.

Warmly, *Steve*

I Pledge Allegiance	I Promise to be faithful and true (Promise my loyalty)
to the flag	to the emblem that stands for and represents
of the United States	all 50 states, each of them individual, and individually represented on the flag
of America	yet formed into a UNION of one Nation.
and to the Republic	And I also pledge my loyalty to the Government that is itself a Republic, a form of government where the PEOPLE are sovereign,
for which it stands,	this government also being represented by the Flag to which I promise loyalty.
one Nation under God,	These 50 individual states are united as a single Republic under the Divine providence of God, "our most powerful resource" (according to the words of President Eisenhower)
Indivisible,	and can not be separated. (This part of the original version of the pledge was written just 50 years after the beginning of the Civil War and demonstrates the unity sought in the years after that divisive period in our history)
with Liberty	The people of this Nation being afforded the freedom to pursue "life, liberty, and happiness",
and Justice	And each person entitled to be treated justly, fairly, and according to proper law and principle,
for All.	And these principles afforded to EVERY AMERICAN, regardless of race, religion, color, creed, or any other criteria. Just as the flag represents 50 individual states that can not be divided or separated, this Nation represents millions of people who can not be separated or divided.

The Fall City Inn won second place in the "Great Getaways: Hotels" category of Evening Magazine's "Best of the Northwest" this year. Check it out at <http://best.king5.com/northwest-escapes> under "Great Getaways" then "Hotel", second page. Leslie Kellogg did an awesome job putting the Inn together, decorating it and getting the word out. Guests love

it; it's a great little hotel and it shows.

The Fall City Roadhouse also participated in the Best of the Northwest contest and won fourth place in the "Local Excursions: Roadside Diner" category. We're on the map! Great job, Scott Krahling and Chef Cameon!

Genuine Image Photography - New time, new trend.

I was having a conversation with a couple of my business friends about how our industries have taken a little turn. The trend has changed. She had pointed out to me, after asking me what projects I had been working on, that my roster was almost all business clients. She was right.

The new trend I am seeing is the amount of promotional sessions, where in the past, they were more personal sessions. I have

seen how people have really been thinking very carefully about *what* and *how* they market. I feel privileged that people see the value in the service I provide and have been taking that step in promoting not only their businesses but also themselves. It is extremely important because when it comes right down to it, it is about people.

My next chapter is so cool. I just love to understand the heart of people. I feel genuinely blessed to have the opportunity to portray my clients. I am currently studying more in the digital arts and plan to offer video services in the future. And I can't wait to show you our new space this Fall!

Work with what you got, bring it from the heart and do your best. Dreams do come true. Who says your only limited to one dream per life? Feel free to follow me on my blog linked off my website at www.genuineimage.com.

Best Workplaces for Recycling - Last year King County businesses sent **220** tons of materials to the landfill that instead could have been recycled, saving money, natural resources and space in the landfill for what really needs to be there.

The King County Solid Waste Division is sponsoring its third-annual "Best Workplaces for Recycling" list as a way to spotlight those businesses that save money and resources by cutting waste. The list is also a great incentive to encourage other businesses to develop recycling and waste-reduction programs of their own. This year the county has added waste reduction as a component to the application. With the current economy, businesses are finding more ways to be efficient and include waste reduction activities along with their strong recycling programs.

Companies with exceptional recycling programs are encouraged to see how they rate against other businesses on King County's Best Workplaces for Recycling AND Waste Reduction list. All businesses operating in King County outside Seattle are eligible to apply, and the list will

be publicized and announced to the public in early summer.

Businesses interested in applying must complete an online application by June 30th. To make the list, a business must meet six basic criteria, and then meet at least 10 from a list of other waste reduction and recycling practices such as using reusable or compostable dishware in kitchens, having a battery collection for recycling or having all printers set for double-sided printing.

More information is available by calling Sharon Aller at 206-296-4352, or sharon.aller@king-county.gov.

Snoqualmie
Valley
Animal
Hospital 

Dr. Teri and I started Snoqualmie Valley Animal Hospital in 2000 with a desire to enter the Snoqualmie Valley community to provide pet owners the top quality veterinary care normally

reserved for larger communities. Years of working in emergency medicine in Georgia, Oregon and Washington had prepared us for most any pet care need, and in 1999 we started looking for a place to call home. We wanted to live and work in a rural environment much like that described in the All Creatures Great And Small novels by James Harriot.

Then a serendipitous thing happened: Teri and I were admiring the Snoqualmie Valley area when we noticed that the Fall City veterinarian had recently retired. The rest has become history. We

are pleased with the results of our efforts and grateful for the acceptance the valley residents and neighbors have shown us.

We continue to strive for high standards while maintaining a rural feel to our practice. Meanwhile we

like to have fun which will be evident (again) at the Fall City Days Parade (note: be near the judges' stand!).
